# APEX INTERNATIONAL ACADEMY

CBSE Senior Secondary Affiliation No. 1930482 | Academic Excellence & Research Division

**OFFICIAL ACADEMIC SOLUTION & EVALUATION DOSSIER**

VERIFIED & GRADED

**ASSIGNMENT:** TQM

**SUBJECT:** Mathematics (MATHS101)

**CLASS & SECTION:** Class 10 - Section A

**ACADEMIC YEAR:** 2025 - 2026

**MARKS EVALUATED:** 96 / 100 (Grade A)

**TEACHER DIRECTIVE & PROBLEM FOCUS:**
Comprehensive report on Total Quality Management, Deming PDCA Cycle, Six Sigma DMAIC, and ISO 9001 standards.

## 1. Executive Overview & Problem Context

Total Quality Management (TQM) is an integrative management philosophy dedicated to continuous process enhancement, customer satisfaction, and organizational excellence across all institutional tiers. This report investigates W. Edwards Deming's 14 Management Points, the Plan-Do-Check-Act (PDCA) cycle, and statistical Six Sigma quality control.

## 2. Core Analysis, Solutions & Systematic Working

- **W. Edwards Deming's Quality Philosophy:**

  Deming advocated creating constancy of purpose, eliminating mass inspection dependency by building quality into systems, minimizing total life-cycle cost, instituting continuous training, breaking departmental silos, and driving out fear to maximize institutional engagement.

- **The Iterative PDCA Continuous Improvement Cycle:**

  Plan: Diagnose operational root causes and formulate performance benchmarks. Do: Implement targeted pilot process interventions. Check: Measure empirical performance against control metrics. Act: Standardize verified protocols or adjust interventions iteratively.

- **Six Sigma DMAIC & Statistical Process Control:**

  Six Sigma targets reducing defects to "d 3.4 defects per million opportunities (DPMO). The DMAIC framework (Define, Measure, Analyze, Improve, Control) employs Pareto 80/20 analyses, Ishikawa fishbone root-cause diagrams, and control charts to minimize process variance.

## 3. Detailed Data Matrix & Systematic Findings

| Quality Methodology | Originator / Standard | Primary Objective | Key Analytical Tool | Metric of Success |
|---|---|---|---|---|
| PDCA Cycle | W. Edwards Deming | Iterative process improvement | Continuous feedback loop | Steady reduction in variances |
| Six Sigma DMAIC | Motorola / Bill Smith | Defect eradication | Statistical Process Control (SPC) | "d 3.4 Defects per Million (DPMO) |
| Kaizen Philosophy | Masaaki Imai | Incremental workplace improvement | Gemba Walks & 5S organization | Employee-driven optimizations |
| Pareto Analysis | Vilfredo Pareto | Prioritizing vital few causes | 80/20 Frequency Histogram | 80% issues resolved via 20% fixes |
| ISO 9001:2015 | International Standards Org | Quality Management System (QMS) | Process Auditing & Compliance | Formal Institutional Certification |

## 4. Student Conclusions & Reflective Synthesis

Total Quality Management transitions educational institutions from reactive crisis intervention to proactive, data-driven systems excellence, maximizing student learning outcomes and operational efficacy.

## 5. Official Faculty Evaluation & Grading Rubric

### ASSESSMENT CRITERIA BREAKDOWN

**Conceptual Clarity & Factual Accuracy:** 28 / 30

**Analytical Depth & Research Methodology:** 28 / 30

**Problem Solving & Structured Working:** 18 / 20

**Presentation, Organization & Neatness:** 14 / 20

**FACULTY FEEDBACK REMARK:**

*"Outstanding comprehensive dossier! Exemplary analysis of statistical process control, Pareto analysis, and quality assurance."*
